

Nurturing Earth Relationships

Workshop & Ceremony

with Patricia Norton & Andrea Wenger

Clay Pots
1635 W. Pratt Street, Baltimore 21223

Sunday, April 21
4 to 8pm

We are One with the Earth, on a physical and a subtle level, so the health of ourselves and the Earth are very connected. When the human race is living in peace and harmony, the earth will radiate this in her natural, beautiful form. When there is great conflict and neglect, this will also be reflected through Mother Earth. Work we do with Earth Mother helps us with our own healing and healing of those around us.
